

UNIVERSITY of LIMERICK

OLLSCOIL LUIMNIGH

Website Deployment Procedure

Server Configuration Information

cPanel Version	11.30.5 (build 2)
Apache version	2.2.21
PHP version	5.3.8
MySQL version	5.1.56
Operating system	linux
Perl version	5.10.1
Kernel version	2.6.32.43-6.art.x86_64
DRUPAL Version	7

Deployment Procedure

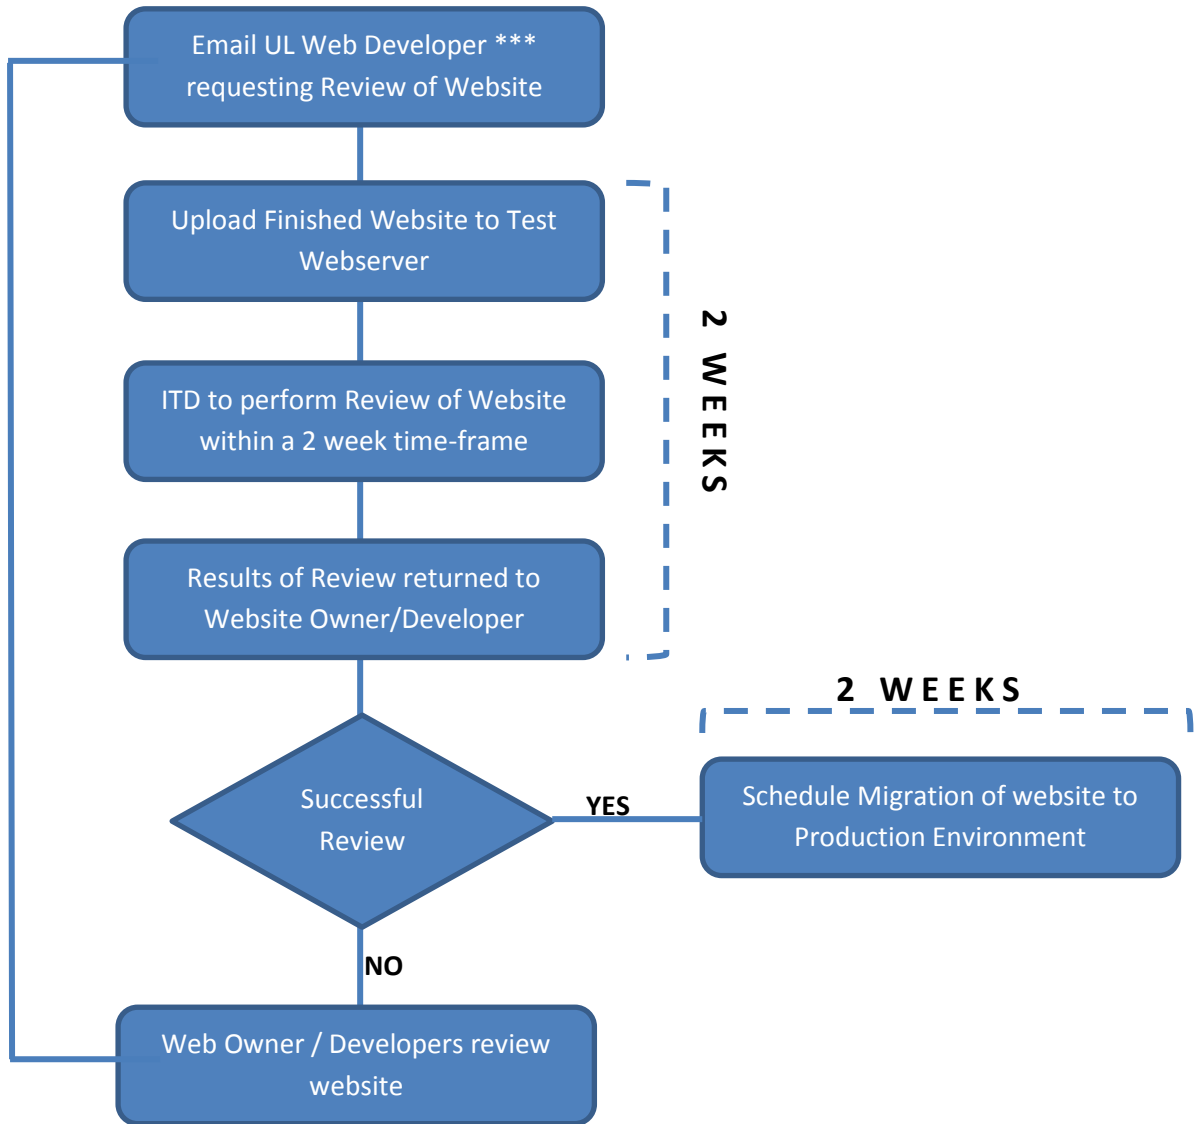

- ITD will only accept website that have been developed using Drupal.
- The website to be deployed to the test webserver should be in a finished production state*.
- The website owner should send an email regarding the website to service.desk@ul.ie alerting ITD.
- ITD will arrange a time for the website to be uploaded to the test webserver.
- ITD will schedule a four-week window that will be allocated to review the website.
 - Week one: review** of website
 - Week two: Results will be fed back to the website owner/ developer
 - Week three & four: Schedule migration of website to Production environment
- Any corrective action needed should be applied and the website delivered to the test webserver for a repeat review and test.
- Once the website is deemed fit for publication on the live server, it will be moved from the test server to the production server in-line with ITDs [Change Control Procedure](#). This will take a maximum of two weeks from the time that the website for deployment is deemed fit for purpose.

***Finished Production State**

- The availability of content in all sections of the website including news and event sections
- Website has been reviewed by owner to ensure it conforms with UL [Web Policy](#)

****Review of website will include the following**

- Stress testing
- Browser compatibility
- Screen size
- Security Scan
- The website will be reviewed by the Communications Office to ensure it conforms to the [University Web Policy](#)
